

BENJAMIN IDOKO EMMANUEL

SUMMARY

Project-focused digital professional with 6+ years of experience delivering web, mobile, and SaaS products across HealthTech, FinTech, Logistics, PropTech, and EdTech. Strong in project planning, cross-functional coordination, stakeholder management, and end-to-end delivery. Proven track record of leading distributed teams, managing timelines and scope, and shipping user-centered digital solutions that drive measurable business outcomes.

CORE COMPENTENCIES

- Web & Mobile Solutions:** End-to-end web project delivery, mobile app UI delivery, WordPress & e-commerce (WooCommerce/Shopify) builds, SaaS platform transitions from concept to production
- UI Design:** Figma-based interface design, user-centered design ranslating research into intuitive UI, full design lifecycle ownership from ideation to final creation
- IT Support & Infrastructure:** Network infrastructure oversight, solutions security coordination,
- Tech Solutions & Delivery:** Cross-functional & remote team leadership, scope/timeline/milestone management, stakeholder negotiation, post-build operational handover

EXPERIENCE

Tracify Logistics, Lead Product Designer — Jan 2025 - July 2025

- Orchestrated the end-to-end delivery of an enterprise-grade fleet management platform, integrating real-time truck tracking and fuel telemetry across international borders.
- Reduced manual dispatcher monitoring time by 30% through a unified UI overhaul and automated reporting system.
- Successfully managed the rollout of driver monitoring features across multiple jurisdictions, ensuring 100% compliance with local transport regulations.
- Negotiated project scope with C-suite stakeholders to ensure a high-stability production launch within a strict 6-month timeline.

Rockcity Consulting Web Designer — Jan 2023 - July 2024

- Maintained a 100% on-time delivery rate for a portfolio of international web projects, managing the full lifecycle from discovery to deployment.
- Led the User Acceptance Testing (UAT) phase for all client deliveries, consistently achieving high satisfaction scores through proactive risk management.

Product Designer , Crowdforce (now fairmoney) 2022-2023

- Led the product design efforts, focusing on delivering user-centric designs to enhance product quality and usability and functionality
- Collaborated with cross-functional teams to ensure seamless integration of design elemnets into overall product developement process.

Nexmove Technologies Technical Lead | 2021-2023

- Managed the entire product design lifecycle, from ideation and research to final creation.
- Designed the User Interface for the Thrifty Mobile App, ensuring a user-friendly and visually appealing experience.
- Led a skilled team in managing network infrastructure, cybersecurity, and IT support to ensure seamless operations of the Faantaxi Solution.
- Worked remotely with an India-based development team to successfully align design objectives with business goals.

Primed E-Health , Project Lead — 2018 - 2020

- Directed the cross-functional delivery of clinic and patient applications, resulting in a 50% increase in product adoption within 12 months.
- Reduced project iteration delays by 30% by implementing more rigorous backlog grooming and requirement-gathering sessions
- Partnered with product owners to conduct user research and translate insights into intuitive, user-centered designs for the end-user experience
